Workforce Solutions

Sourcing & placing the best people in aviation; casual, short & long term

Maintenance, Repair & Overhaul

CASA and DASA Part145 approvals, EASA Part 145 certification.

Career Development

I started my career with Sigma Aerospace as a contractor. They treat you like a family, and provide any help required; they are always ready to give a hand.

They started Part147 and I did B737-NG and DASH8-Classic type course with them. I had an Awesome instructor and wonderful team to work with. I feel the way they have come from Manpower to training school it's amazing progress.

As a LAE or TECH it's a career progression within the same company, No need to look around. Get all your qualifications sorted, plus get your experience and do type courses.

Grow in your career at one place with best of the people running the show"
