

Aircraft Manufacturers Flight Training Association: AMFTA

“Enhance global flight safety by providing unified recommendations for flight training.”

AMFTA President - Capt Jean-Michel Bigarré
EATS - Berlin, November 2022

Aircraft Manufacturers
Flight Training
Association

A pilot training dedicated association

VISION

“Enhance global flight safety by providing unified recommendations for flight training.”

AIRBUS

 **BOEING**

COMAC

 **EMBRAER**

CS25 status with over 19 seats
Open membership to this criteria

VISION

VISION

AGILE

RAPID

SOLID FOUNDATION

RATIONALE

Increasing volume of requests for aircraft manufacturer training recommendations

Common goal & AM specific responsibility for safe & efficient operations

Need for AM ATO common approach towards local NAA regulations

Provide unique guidance from AM ATOs to flight training industry working groups

Provide guidelines for technology evolution by integrating AM ATO common vision at an early stage

Need for harmonised recommendations for acceptable standards from the product manufacturers training perspective

AMFTA - the story...

Our Ambition: 4 pillars

Join AM forces to provide unified manufacturers flight training recommendations

SAFETY

...because safety is not just about being compliant

Focus on the right standards at the right time balancing safety, quality, and budget

ESSENTIALS

...because flight training affects different, but important basic criteria in our industry

Guiding by providing a reference for industry stakeholders:
AM / airlines / NAAs...

ALIGNMENT

...because we all have the same end goal

Lead sustainable technology progress based on teaching objectives

PROGRESS

...because training is about the future, and an efficient, sustainable way to lead and implement our future

NEXT STEPS

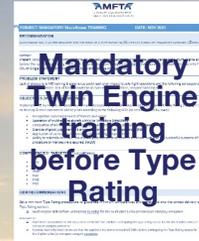

SHORT TERM

AMFTA Communication

- ★ Continual exchange with NAAs, ICAO...
- ★ Communicate: key essential & clear recommendations
- ★ Emphasize & focus on full system consistency while keeping a clear & comprehensive message based on key fundamental flight training objectives

AMFTA internal working groups

- ★ Capture the essentials of training & challenge its efficiency
- ★ Address existing & future regulations from a Manufacturer pilots training organization point of view
- ★ Enhance operational & pertinent data collection from all AMs to manage & anticipate training needs & evolution
- ★ Facilitate access to concrete & efficient competency-based training

MID-LONG TERM

- ★ Ensure results are sustainable over time, worldwide
- ★ Anticipate new technologies with AM ATO insight (and collaborate)
- ★ Drive consistency within AM training programmes
- ★ Enhance training issues detection & address them rapidly
- ★ Welcome other members

Put common sense back into the heart of decision-making

EXAMPLES

Establish standardized screening criteria.../....

Establish pre-requisite recommendations before training

Disclose issues without fear of retribution.../...

“Enhance global flight safety by providing unified recommendations for flight training.”
